

**NEW**

## CellWax Plus™

**Polymer added white translucent embedding wax conveniently packaged in easy to dispense 2.5kg re-sealable bags.**

- Ultra-filtered and pure to ensure no contamination of specimens or knife damage
- Pelletised to ensure rapid melt-down and convenience of use
- Paraffin wax blended with plastic polymers to produce a high-quality product to improve the elasticity and sectioning properties of the final block
- Melting point of 54/57°C - will remain stable when molten for long periods

- Melting Range: 54°C - 57°C
- Congealing Range: (ASTM D938) 54°C - 57°C
- Visual: White translucent pellets
